~ On The Precipice of Change ~

Listen to the Call of The Divine Plan within and BE an Impetus for Peace

Featured Presentations:

Spirit Action ~ Uniting the Personal Life with the Rhythms of the Living Universe

A method for increasing sensitivity to waves of love and creative power now flowing through our planet. A way to act on your highest hopes and possibilities and to heal the world in one seamless flow. **John Raifsnider** is a San Diego writer and astrological consultant. Aligning the mindfulness of meditation with the shifting pulse of the heavens yields what John calls the astrology of the living universe. He offers 'sky therapy' consultations and classes from his mountain retreat in Julian, California. Online find him at <http://astro-adventure.blogspot.com>

"Shift of the Ages" ~ Some Truth Behind the Mayan Calendar and year 2012

Film Producer Steve Copeland will share scenes from his upcoming film "Shift of the Ages," which honors the role of the Mayan Elders in bringing harmony to Planet Earth and explores the impending changes of our shift to a New Sun. He will set the historical context leading up to the film's development and share how the project relates to world events transpiring today, including auspicious implications of the Mayan Calendar itself. **Steve Copeland** is a modern day visionary currently working in the entertainment industry to facilitate change and the raising of collective awareness. Copeland's current film project is being produced with Grand Mayan Elder Alejandro Cirilo Perez Oxlaj "Wandering Wolf" and the Maya Nation of Guatemala. <http://www.shiftingages.com>

The Sacred Mandala

The Mandala is a form of Sacred Geometry found in repeated patterns throughout Creation ~ from the heart of the nucleus to our solar system, the soul-chakra system and "third-eye" ajna screen of meditation, to beautiful abstractions of fine art. Simple exercises will bring participants in touch with their own creative selves. From a place of creative awareness, we will use the mandala as a framework to connect with the subconscious and our Higher selves. **Raina Colvin, HHP** is a fine artist, a teacher of massage therapy and a massage therapist. Raina is passionate and enthusiastic about her three careers. Through each, she expresses her creativity and promotes growth and connection within her community.

Chakra Alignment with Healing Sounds of the Harp

Explore the healing, soothing benefits of Harp Music in Meditation and experience the correlation of musical scales to the Chakra System. Harps are unique in producing not only all the tones of the musical scale but all of the overtones as well. With a full range of sound vibration, harps have the greatest capacity for matching the listener's energy. **Linda Hill** is an accomplished professional Harpist and Certified Therapeutic Harp Practitioner with the International Harp Therapy Program. She has a number of CD's available and in addition to her therapy sessions, is available for memorials, weddings, and community events. <http://www.celestialharp.com>

The Constellation ~ Choreographing Our Future: A Healing for Ourselves and the Planet Earth

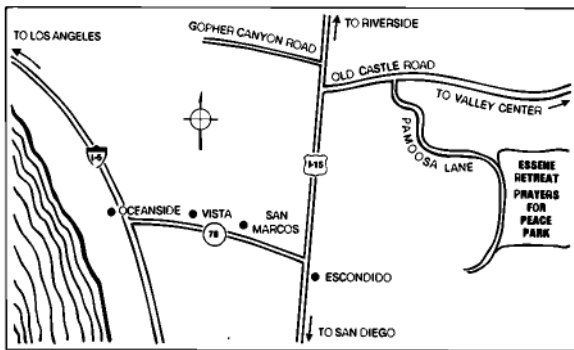

Constellation work is Soul Work. Reflecting themes from Shamanism, Astrology, and cutting edge Psychotherapy, this process allows one to engage with the soul's environment, gently moving into resolution those issues and ancestral patterns that detract from one's psycho-spiritual strength. Conducted in a group environment, the process allows all present to relate to new facets of themselves by tapping into the Universal "knowing field" of akashic record and the Now. **Jim Hennem** is Director of Marketing and Public Relations for the California Institute for Open Studies. He is an accomplished astrologer, who is also one of a select number in the World utilizing the Bert Hellinger Approach to Origin Constellations, as adapted to the astrological horoscope.
